

# MAGNI 585

## MAGNI 585 FASTENER COATING

MAGNI 585

Magni 585 is a duplex coating that combines an inorganic zinc-rich basecoat with various colored, organic, nonmetallic topcoats. Engineered for use on constant-tension hose clamps, Magni 585 is the preferred coating of the world's leading clamp manufacturers and is widely specified by leading global automakers.

- Applied in fewer layers than conventional coatings, resulting in low-cost application and superior corrosion protection
- Developed for use on POPP (pre-opened pre-positioned) clamps
- Excellent adhesion/cohesion for glued-on clamps
- Excellent general adhesion, flexibility and chemical resistance
- Resistant to automotive fuels and fluids, including sodium hypochlorite (bleach)
- RoHS, WEEE and ELV compliant

### PERFORMANCE DATA\*:

<b>Color</b>	Black; dark gray; light gray
<b>Coating thickness</b>	5 microns minimum (topcoat) over 7 microns minimum (basecoat)
<b>Cycle corrosion</b>	Exceeds 10-year equivalent in various cycles
<b>Salt spray ASTM B117:</b>	1,500 hours

### OEM SPECIFICATIONS:

Daimler	DBL 8440
FCA	PS-7626
Ford	WSS-M21P45-A1/A2 (S444/S445)
General Motors	GMW 14083
Nissan	NES M4601
Volkswagen	TL134, TL233

\*Typical Values – refer to OEM Specifications and Magni Application Guidelines for official specifications  
Anti-Corrosion Effect Pigment Paint
